FREEPORT CHAMBER OF COMMERCE

Whats Happening!

Happy Summer

June is here and the sun is shining!!! Freeport is alive and bursting with activities. The summer season officially kicks off Memorial Day weekend and is celebrated with the annual Nautical Mile and Blues Festival the first weekend of June. Freeport has so many things to do for the entire family. Whatever your interests there is something for everyone. Our community is rich with social diversity. Year-round, Freeport is a great place to live, work and play. Our Local Chamber of Commerce serves to unite the community and advance our local businesses. The Chamber meets once a month on Tuesdays for a luncheon at one of our local restaurants with a guest speaker. We also host other local networking events for the village and the chamber.

One of the exciting projects that is being built here in Freeport is the New Moxie Housing Authority building. The new building, which has a New England shingle-style design, sits on 2.44 acres, and has a footprint of 34,634 square feet. Apartments will range from one to four bedrooms, and will be 25 percent larger than the units in the existing complex. The five-story structure is being elevated above the flood plain — apartments will start on the second floor. Rents are based on tenants' income.

MEMBER OF THE MONTH

Elizabeth Boitel

Elizabeth Boatel is the President of Tri-State Technologies, Inc., it is a Cabling and Installation for Communication and Security company. It is privately owned and has operated out of Freeport, NY since its Incorporation in October of 2003. They act as direct Contractors and Sub-contractors to customers in the Residential, Commercial, and industrial markets as well as State & Government Municipalities. They currently have eight employees five of which are Freeport Residents. As business owners and residents in Freeport we aim to support all other Freeport businesses by shopping locally whenever possible and urge others to do the same.
